Description

One of Pennsylvania's many coal-hauling short lines and part of Bethlehem Steel's railroad family, the Cambria and Indiana hauled coal from its namesake counties in western Pennsylvania for decades. In 1976, this small line took part in the national celebration of our Bicentennial, painting not only a locomotive but also two hoppers and a caboose for the event. The operation was a hold out to a simpler era, but the pride of the employees showed in how they maintained their equipment. The C&I maintained its fleet of 55 ton hoppers and switchers well; so much so that they were still in service into the 1990s! The Bicentennial train was but one colorful chapter in that history. This great set brings you the full red, white and blue train plus two additional hoppers. Another hopper two pack and yellow and black SW9 are available separately to help recreate a full coal train.
SET INCLUDES:
LEGACY SW9
4 Die-cast twin hoppers
Lighted 2-window caboose
LOCOMOTIVE FEATURES:
LEGACY® Control System equipped – able to run in LEGACY® Control mode, in TrainMaster® Command Control mode, or in Conventional mode with a standard transformer
Bluetooth® Control - Operate with Universal Remote or LionChief® App
Lionel Voice Control (LVC) - run your locomotive by speaking commands into your phone via LionChief® App
Odyssey® II Speed Control
IR Transmitter for SensorTrack™
Powerful maintenance-free motor with momentum flywheels
Fixed pilots
ElectorCoupler™ on front and rear
Traction tires
Refined Conventional Transformer Control mode with lower starting speeds
Fan-driven smoke unit
Adjustable smoke output
Directional lighting including LED headlights

Marker lights on front and rear
Illuminated number boards
Lighted cab interior
Die-cast trucks, pilot and fuel tank
Metal frame
High levels of separately applied metal details
Engineer and conductor figures
LEGACY® RailSounds® sound system featuring:
CrewTalk™ dialog with different scenarios depending on whether the locomotive is in motion or stopped
TrainSounds that mimic realistic radio chatter when the locomotive is in motion or stopped
Six official railroad speeds with CrewTalk dialog
Eight diesel RPM levels
LEGACY® "Real-Time Quilling Horn" control with instant response for realistic signature "quilling" and correctly timed warning signals - 5 different horns to choose from for a more customized experience
Single hit or continuous mechanical bell sounds - 5 levels of bell pitching for customized sounds
Sequence Control: Plays the sound effects of an entire trip, including warning sounds and announcements, based on the movement and speed of the locomotive
Current speed and fuel dialog, refueling sound effects
ROLLING STOCK FEATURES:
Die-cast trucks
Operating couplers with hidden tabs
Die-cast bodies on hoppers
Removable coal loads
Interior with figures in caboose
LED interior illumination in caboose
Separately applied detail parts
Easy conversion to scale couplers and wheels (available separately)

PRODUCT SPECIFICATIONS
Gauge: O Gauge
Power: Electric
Engine Type: Diesel
Min Curve: O31
Dimensions: Approx. 63"
